

Why can't I create an account?

Last Modified on 07/10/2019 3:22 pm AEDT

When you try to create an account you might get an error message saying "Your Request cannot be processed at this time. The site administrator has been alerted".

A screenshot of the GameDay Mobile sign-up page. At the top, it says "Please signup to register or renew your membership". Below that, a red error message states: "Your request cannot be processed at this time. The site administrator has been alerted." The form contains five input fields: a name field with "Lavanya", another name field with "Vijayan", an email field with a masked address, and two password fields, both masked with "*****". A green "Sign Up" button is positioned below the password fields. At the bottom of the form, there is a link that says "Already have an account? Login".

This message means you already have an account. For example, if you have used the same email to create a **GameDay Mobile** account, you can use the same account to login here.

Click **Already have an account? Login** to go to the login page.
