

Changes To The Display Of Members (May 2018)

Last Modified on 20/06/2018 2:43 pm AEST

Changes to the display of member details

Member Details

We have made a change to the way member details are displayed in TGP. Rather than displaying a view of a member for each organisation they are associated with, we have changed to a single view of each member which includes information associated with any organisations they belong to. Essentially administrators will be able to see the same information on their members, it will just be presented in a single view:

Order Twenty Five
