

How do I create a GameDay account?

Last Modified on 18/01/2024 1:20 pm AEDT

To create an account to register yourself or your children, you will need a link to a registration form from your organisation, so if you do not already have access to one, please contact your organisation directly to get this registration form link.

Once you have received the form from your club, you will be able to create an account on the login page of the registration form.

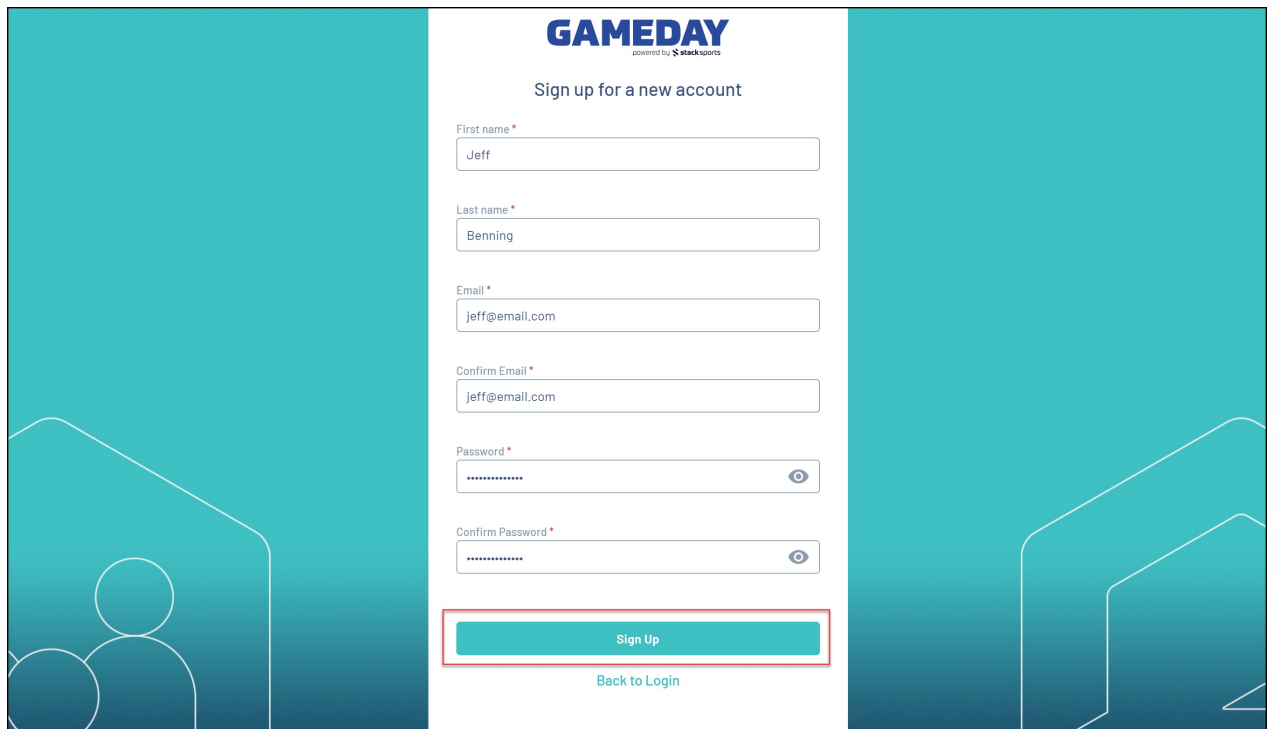

If you are a parent registering multiple children, you only need to create this account once. If you wish to receive the confirmation email, please make sure this account matches that of the email you are going to register your children with.

Note: Creating a GameDay account does not register you or your children to the club; it is designed for the system to recognise you as an existing user so you are able to store information and history for any of your linked members.

1. Open the link to the registration form you received from your organisation
2. On the front page of the form, click **SIGN UP**.

A screenshot of the GameDay 'Login/Register' page. The page has a teal background with white line art of people in the corners. In the center is a white card with the GameDay logo at the top, which includes the text 'powered by stacksports'. Below the logo is the heading 'Login/Register'. There are two input fields: 'Email *' and 'Password *'. The password field has a 'Forgot?' link and an eye icon. Below these fields is a teal 'Login' button. Under the button, it says 'No account yet? Sign Up', with 'Sign Up' highlighted by a red rectangle. At the bottom of the card, it states 'By clicking Login or Sign Up, you agree to the GameDay Privacy Policy'. Below the card, there are logos for 'Braintree' and 'PayPal', followed by the GameDay logo and the text '© Copyright GameDay. All rights reserved.'

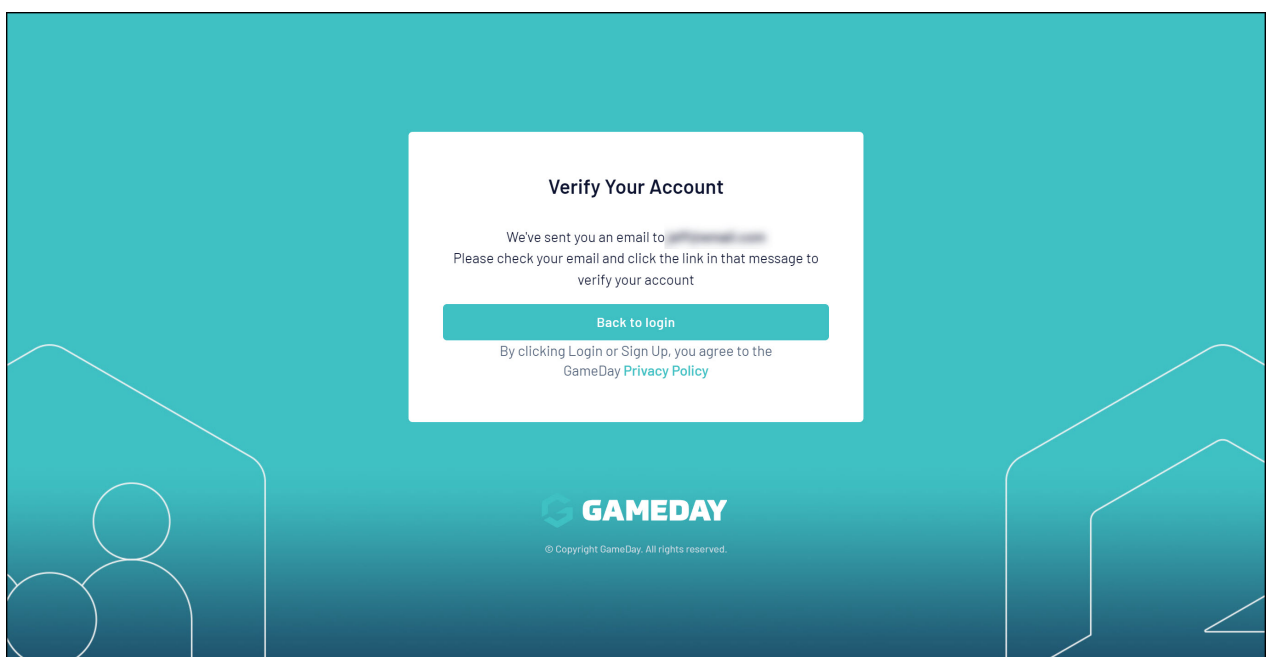

3. Complete all the relevant information, then click **SIGN UP**.

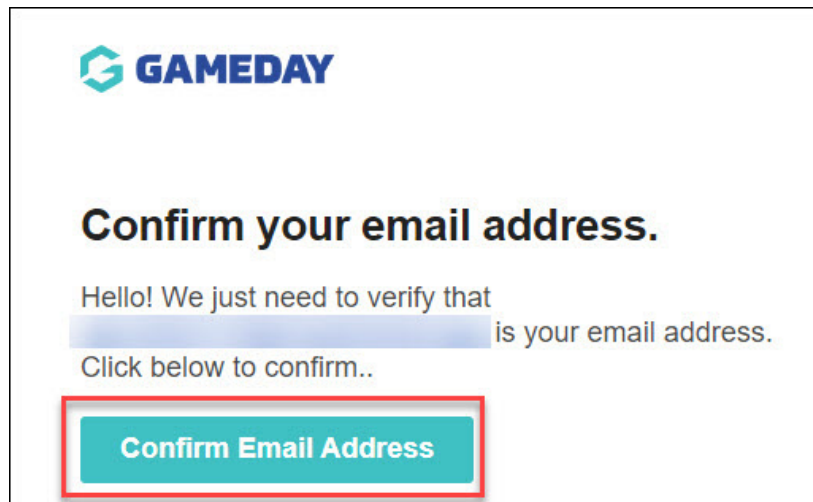

The screenshot shows the GameDay sign-up page. The header features the 'GAMEDAY' logo with 'powered by STACKSPARKS' underneath. The main heading is 'Sign up for a new account'. The form includes fields for 'First name *' (filled with 'Jeff'), 'Last name *' (filled with 'Benning'), 'Email *' (filled with 'jeff@email.com'), 'Confirm Email *' (filled with 'jeff@email.com'), 'Password *' (masked with dots), and 'Confirm Password *' (masked with dots). Each field has a red asterisk indicating it is required. At the bottom of the form is a teal 'Sign Up' button, which is highlighted with a red rectangular border. Below the button is a link that says 'Back to Login'. The background is a teal gradient with white line art of people's heads and shoulders.

4. You will then see a screen that asks you to check your email account for a confirmation email to verify your account.

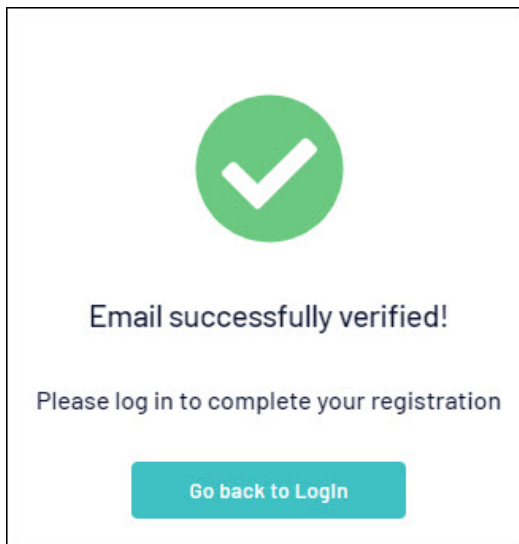

Note: Please ensure you verify your account before continuing through the registration form, otherwise your account will not be created. Email verification links expire within 24 hours.

5. You will then receive an email to confirm your account. Please be sure to check your spam/junk folders as emails can appear there

6. Once your account has been confirmed, a confirmation screen will appear.

Your account has now been created, and you can log in and register yourself and your children through the registration form.
