

## Help Widget

Last Modified on 31/10/2023 3:06 pm AEDT

GameDay includes an always-on **Help Widget** which is available and includes:

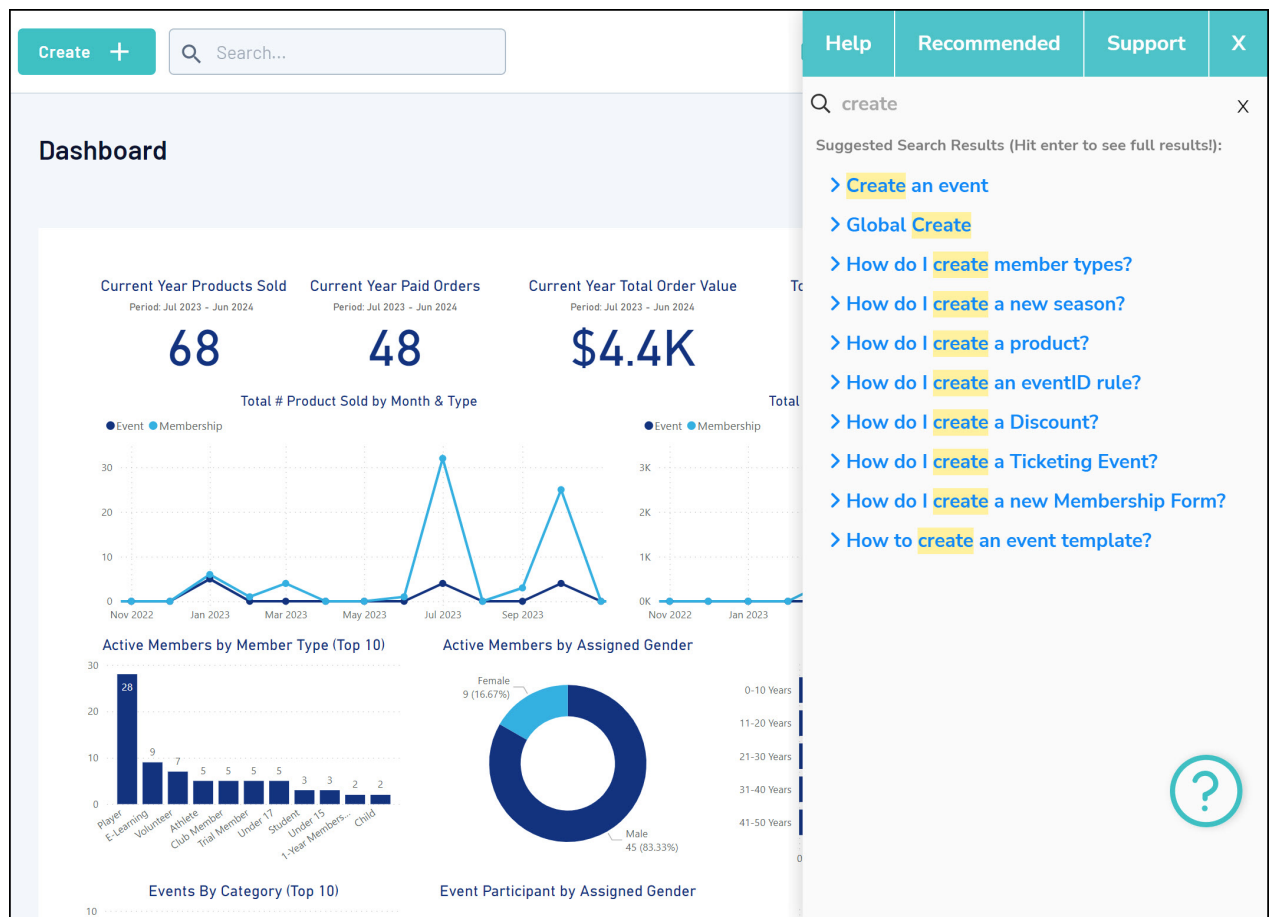

- Step-by-step help articles covering specific processes, feature overviews, and frequently asked questions
- The ability to submit a support ticket to our customer support team should you need to speak to one of our team of experts

To access the Help Widget, click the **?** icon in the top toolbar

By clicking this widget, you will see a panel pop up on the right-hand side of your screen.

In the **HELP** tab, you can search for a particular article and access the help guide without leaving the platform:

Global Create 

Last Modified on 30/10/2023 2:43 pm AEDT

All GameDay administrators have access to the **Global Create** feature, allowing quick and easy creation of particular assets.

To access the Global Create option:

1. Click the **CREATE** button in the top toolbar

2. Choose what you would like to create. Using this option, you can

If the information on a process cannot be found within the help centre articles, or you have further questions for our team, you can submit a request to our support team through the **SUPPORT** tab

## Not much of a reader?

In addition to our support articles, we have a number of other training and onboarding options available inside and outside of the platform. Check out the options below to find the right approach for you:
