

ECAL Events

Last Modified on 20/09/2023 4:19 pm AEST

NOTE: this section can only be used if your organisation uses our GameDay Events platform. If you do not use this module then you can set up an event within the website itself, using the 'Old Events' Feature Add On.

The ECAL Events tab allows those organisations that use our GameDay events platform to integrate their events into their website.

1. Under the **SECTIONS** header click on the **ECAL EVENTS** tab.

INTEGRATING EVENTS INTO THE WEBSITE

To integrate your events into our websites you will first need to set up and create events from within your organisation database, then you can integrate this using ECAL into your website.

1. Once you have set up your events, make sure you have the API Key and WIDGET ID in order to be able to integrate into this section. Instructions on how to find these can be found [here](#).

2. Input the API Key from your widget into the API KEY section.

API key

uyesjY2gsgpU8nYW1oKw17NJHmV3ikMZV8YRenPMm6062da2f0

3. Input the Widget ID from your widget into the WIDGET ID section.

Widget ID

62da2f0eb3cf5e000f2fa96b

3. Input a **name for these events**. If the events selected for the widget are specific then name this accordingly, if the events selected for this widget are general across the year then call it your org name events or something along the lines.

4. Enter a url for the 'more events' link.
