

What is ID Management?

GameDay's **ID Management** functionality allows you to automatically generate unique IDs for various components of your database and define the sequences that the system will follow using custom **ID Rules**.

ID Rules can be created to generate and assign unique IDs to:

- Members
- Event Participants
- Events
- Organisations

By setting up ID Rules, you can automate the process of assigning unique IDs with little to no manual intervention required. With ID Rules generated, your GameDay database allows you to:

• View IDs on individual records for members, event participants, events and organisations:

| ictive H | History | | |
|----------------------------------|------------------|------------------------|--|
| Logo | Organisation | Financial Status | Status |
| G | GameDay Training | N 🔇 S 🖉 A 🔇 C 🔇 C 🔇 | C 😢 A 🔇 B 🔇 |
| Member IDs National ID | National001098ID | Member Ty Student | All Types All Member Types Active Active 31 December 2023 (AEDT) |
| | BIB10239022 | | |
| State ID | | | |

• Include IDs in applicable Tabular Reports

ID Management List

To access your **ID Management** list:

1. Open the My Organisation menu, then click **SETTINGS**

| Dashboard | (|
|----------------------|-----|
| My Organisation | |
| Organisation Details | |
| Admins & Contacts | |
| My Hierarchy | |
| Settings | |
| Finances | • |
| Members | • |
| Membership Forms | • |
| Products & Questions | |
| Promotions | NEW |
| Events | • |
| Reports | |

2. Navigate to the **ID Management** tab:

| Settings | | | | |
|----------------------|--------------|-------------------|---|---|
| Seasons & Age Groups | Member Types | ID Management NEW | | |
| Seasons Age Gro | Dups NEW | | | |
| Create Season | | | Select organisation 🔹 🖌 Active 🔹 🔍 Type to search | • |

3. Select which type of ID you want to manage from the ID tabs:

| ettings | | | | | | |
|-----------------------------------|-----------------|--------|-----------------|------------|----------------------------------|-----------|
| Seasons & Age Groups | Member Types | ID M | anagement NEW | | | |
| Organisation ID N | 1ember ID Event | t ID | | | | |
| Create New Rule | | | | | Please Select 🔹 🔍 Type to search | Ö |
| Rule Name 🗢 | Prefix | Suffix | Starting Number | Max Number | Status | Action(s) |
| Club ID | С | 21 | 100 | 900 | Active | Edit |
| Show 5 💌 Showing rows 1-1 of 1 | | | K < | | | |

The available options are:

Organisation IDs: Allows you to create ID Rules to assign unique IDs to existing and future organisations within your hierarchy

Member IDs: Allows you to create ID Rules to assign unique IDs to existing and future registered members in the current season

Event IDs: Allows you to create ID Rules to assign unique IDs to existing and future Events in your organisation's database

Each **ID List** will show you a list of any previous or current ID Rules, including:

- Rule Name
- **Prefix & Suffix**: The customisable prefix and suffix that is automatically applied to the beginning and end of each ID generated with this rule.
- **Starting & Max Number**: The number range from which you want the individual IDs to being and end.
- Status

Page Actions

On the **ID Management** page, you have access to a number of features and customisation options, including:

| Se | ttings | | | | | | |
|----|-----------------------------------|--------------|--------|------------------|------------|--|-----------|
| | Seasons & Age Groups | Member Typ | es II | D Management NEW | | | |
| 1 | Organisation ID | Member ID Ev | ent ID | | 3 | 4 | 5 |
| | Create New Rule | Prefix | Suffix | Starting Number | Max Number | Please Select V Q Type to search Status | Action(s) |
| | Club ID | С | 21 | 100 | 900 | Active | Edit |
| | Show 5 👻 Showing rows 1-1 of 1 | | | K K | 1 > >1 | | |

1. ID Type toggle: Switch between Organisation ID, Member ID and Event ID lists and related functionality

- 2. Create button: Create a new ID Rule
- 3. Status filter: Filter by Active or Inactive ID Rules
- 4. Search: Search for existing ID Rules by name
- 5. List Table Settings: Define which fields display in the columns of the list table
- 6. Edit: Edit existing ID Rules
